

LIVE WEBINAR TEACHING SUSTAINABILITY THROUGH GAME-BASED LEARNING

LUANA SILVERI
UNIVERSITY OF GRONINGEN

Join us

Join us to deepen your understanding of game-based education and its potential to foster the innovative, learner-centred approaches promoted by the EU's education policies. The following key questions will be explored:

- ✦ How to find the right game to introduce what kind of contents
- ✦ Which game mechanics are most effective in fostering key skills
- ✦ What role should the teacher play in a game-based lesson, and how they can enhance its transformative and educational effectiveness
- ✦ How to deepen scientific understanding and stimulate metacognition during the debriefing phase
- ✦ How to develop a rubric and use it to assess the efficacy of a game-based lesson

27 MAR '25
5:00 - 7:30 PM CET

MODERATOR: **Tiziana Faitini**

This webinar is one of several initiatives carried out by **GrACE – Green Europe: Active Citizenship and the Environment**, an international teacher training programme led by the University of Trento. It aims to provide educators with comprehensive knowledge of environmental issues and the EU's strategies for tackling the climate crisis, along with innovative methods for teaching about green issues.

Participants with minimum 75% of attendance during the session will receive an official Certificate of Attendance issued by the University of Trento/JM Centre upon request.
