LIVE WEBINAR FOOD, CLIMATE AND HUMAN WELL-BEING

Towards a sustainable food system

COLIN SAGE

INDEPENDENT RESEARCH SCHOLAR

Join us

to deepen your understanding of how climate-induced hazards may undermine global food security.

This talk will explore the complex relationship between food systems and climate change. The discussion aligns with the EU's vision for more sustainable and resilient food systems by examining the interconnected challenges of climate change, agriculture, and food security. It will discuss how the food system contributes to significant environmental challenges and why building resilience requires rethinking both agricultural practices and our broader consumption habits to secure food in a changing climate.

REGISTER NOW!

12 DIC '24
5:00 - 6:30 PM CET

MODERATOR: **Tiziana Faitini**

This webinar is one of several initiatives carried out by **GrACE – Green Europe: Active Citizenship and the Environment**, an international teacher training programme led by the University of Trento. It aims to provide educators with comprehensive knowledge of environmental issues and the EU's strategies for tackling the climate crisis, along with innovative methods for teaching about green issues.

Participants with minimum 75% of attendance during the session will receive an official Certificate of Attendance issued by the University of Trento/JM Centre upon request.
